

BSSM Video Curriculum: Terms & Agreement

The following Terms & Agreement apply to the entire contents of the Bethel School of Supernatural Ministry (BSSM) Video Curriculum.

Our goal in developing the curriculum is to provide leaders with the needed resources to start ministry schools of their own. Each ministry leadership team has its own call and authority for its region. In that, we ask that you use your own school name and develop your program based on the vision God has given you for your area.

Our desire behind the guidelines for the use and reproduction of our curriculum listed below is to ensure that each school is overseen by a strong leadership team, who will mentor and build relationship with the students and who will work to cultivate a kingdom culture of honor and revival.
